About WDS

The Women's Dermatologic Society, founded in 1973, is dedicated to helping dermatologists fulfill their greatest potential and assisting them in making a contribution to our specialty and society. To achieve this goal, the Society relies on the active participation of its members, who represent a diverse cross-section of professional sub-specialties.

Vision Statement

Success for every woman in dermatology.

Mission Statement

To empower and connect women dermatologists through personal and professional development, mentorship, service and leadership.

Connect with us!

Dear Colleagues,

On behalf of the Women's Dermatologic Society (WDS), it is our great pleasure to welcome you to sunny Scottsdale for the 2025 Industry Visioning Work Group (IVWG) and WDS Forum. We are honored to have you join us for this inspiring gathering of dermatology professionals, industry leaders, and advocates dedicated to advancing the field and supporting one another.

With the theme of "The Next 50 Years of WDS", this event provides a unique opportunity to engage in meaningful discussions, exchange groundbreaking research and advances, and explore innovative solutions shaping the future of dermatology. More importantly, it fosters a strong sense of community—where mentorship, collaboration, and empowerment thrive.

Over the next few days, you will hear from distinguished speakers and panels, participate in insightful sessions, and connect with peers who share your passion for excellence in dermatology. We encourage you to take full advantage of this time to learn, network, and contribute to the collective growth of our field. A few highlights:

- *Network and meet each other browsing exhibit booths and enjoying refreshments at the WDS **Welcome Reception** on Friday night*
- *Connect with new colleagues on Friday evening at the **first-ever Collaborative Conversations Dinners**, hosted by our industry partners!*
- *Start off your day right with "**Rise & Shine**" sessions including Chakra Meditation and Yoga*
- *We welcome **invited guest speakers** Dr. Sonal Haerter who will speak Saturday to help you "Redefine Your Own Success in Medicine" and Dr. Nicole Piemonte who will speak on Sunday on "Caring Well Without Losing Yourself: Rethinking Compassion Fatigue in Medicine"*
- ***Envision the next 50 years of WDS** through the WDS Past Presidents and WDS Leaders and Rising Stars panels and lunchtime table discussions*
- *Learn the latest research advances with our 30 selected abstracts during the Saturday night **Poster Crawl & Wine Reception***
- *Cast your vote for the inaugural WDS Forum Top Research Award during the **Oral Abstract Presentation** session this Sunday!*

Thank you for being part of this remarkable event. Your presence and participation make this forum a success, and we look forward to the knowledge and connections that will emerge from our time together.

Welcome, and enjoy the Forum and IVWG!

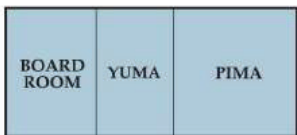

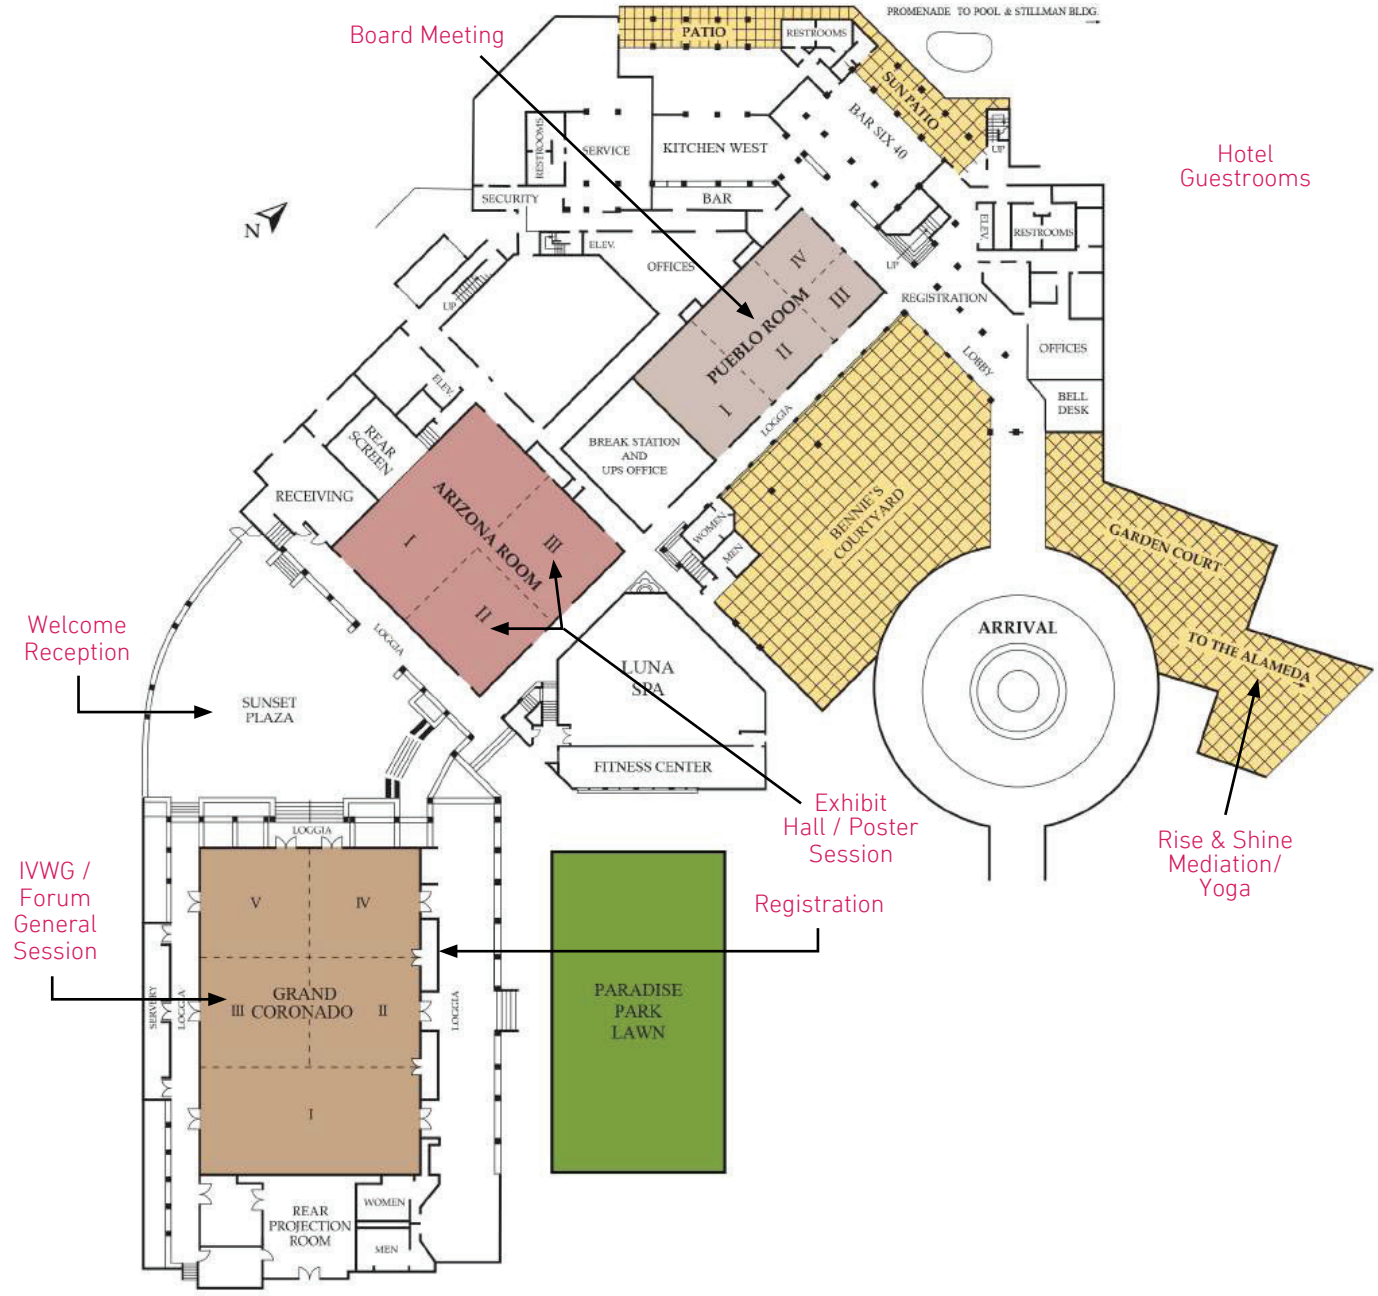

Warm regards,

Sarah Jackson, MD

Corporate Descriptions

Allergan

At Allergan Aesthetics, an AbbVie company, we develop, manufacture, and market a portfolio of leading aesthetics brands and products. Our aesthetics portfolio includes facial injectables, body contouring, plastics, skin care, and more.

With our own research and development function focused on driving innovation in aesthetics, we're committed to providing the most comprehensive science-based product offering available.

For more information, visit www.AllerganAesthetics.com.

Arcutis

Arcutis Biotherapeutics champions innovation that addresses unmet patient needs—solving the everyday medical dermatology challenges that significantly impact patients and their families. With a passion for understanding what really matters to patients and healthcare providers, Arcutis leverages extensive dermatology development expertise to meaningfully advance the treatment of immune-mediated skin diseases.

This expertise, along with Arcutis' focus on biologically validated targets and its unique dermatology drug development platform, prepares the company to tackle topical treatment innovation. Founded in 2016 by a leadership team with deep dermatology and commercialization experience—including 50+ FDA-approved products among them—Arcutis features 5 dermatology clinicians on staff.

Bristol Myers Squibb

Bristol Myers Squibb is a leading global biopharma company focused on discovering, developing, and delivering innovative medicines for patients with serious diseases in areas including oncology, hematology, immunology, cardiovascular, fibrosis and neuroscience. Our employees work every day to transform patients' lives through science.

Castle Biosciences

Castle Biosciences is a leading diagnostics company improving health through innovative tests that guide patient care. We aim to transform disease management by keeping patients and clinicians first. Our innovative tests for skin cancers, uveal melanoma, Barrett's esophagus and mental health conditions provide personalized, clinically actionable information to clinicians and patients to guide treatment decisions and improve health outcomes. (www.CastleBiosciences.com)

Galderma

Galderma is the emerging pure-play dermatology category leader, present in approximately 90 countries. We deliver an innovative, science-based portfolio of premium flagship brands and services that span the full spectrum of the fast-growing dermatology market through Injectable Aesthetics, Dermatological Skincare and Therapeutic Dermatology. Since our foundation in 1981, we have dedicated our focus and passion to the human body's largest organ – the skin – meeting individual consumer and patient needs with superior outcomes in partnership with healthcare professionals. Because we understand that the skin we are in shapes our lives, we are advancing dermatology for every skin story. For more information: www.galderma.com

Incyte

Incyte is making significant investments in dermatology, targeting inflammatory and autoimmune skin conditions. Their pipeline includes treatments for vitiligo, atopic dermatitis, and hidradenitis suppurativa. Notable products such as ruxolitinib cream and povorcitinib are in advanced clinical trials and show potential for broad therapeutic use. Incyte is focusing on highly selective small molecules and innovative biologics, highlighting their commitment to first-in-class solutions and improving outcomes in underserved dermatological areas.

Learn more by visiting www.incyte.com/what-we-do/dermatology.

Lilly

Lilly unites caring with discovery to create medicines that make life better for people around the world. We've been pioneering life-changing discoveries for nearly 150 years, and today our medicines help more than 51 million people across the globe. Harnessing the power of biotechnology, chemistry and genetic medicine, our scientists are urgently advancing new discoveries to solve some of the world's most significant health challenges, redefining diabetes care, treating obesity and curtailing its most devastating long-term effects, advancing the fight against Alzheimer's disease, providing solutions to some of the most debilitating immune system disorders, and transforming the most difficult-to-treat cancers into manageable diseases.

Organon

Organon is an independent global healthcare company with a mission to help improve the health of women throughout their lives. Organon's diverse portfolio offers over 70 medicines and products in women's health, biosimilars, and a large franchise of established medicines across a range of therapeutic areas. In addition to Organon's current products, the company invests in innovative solutions and research to drive future growth opportunities in women's health and biosimilars. Organon is also pursuing opportunities to collaborate with biopharmaceutical partners and innovators who look to commercialize their products by leveraging Organon's scale and agile presence in fast growing international markets.

Pfizer

About Pfizer: Breakthroughs That Change Patients' Lives

At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety and value in the discovery, development and manufacture of health care products, including innovative medicines and vaccines. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments and cures that challenge the most feared diseases of our time.

Regeneron/Sanofi

Regeneron is a leading biotechnology company that invents medicines for people with serious diseases. Founded and led for over 30 years by physician-scientists, our unique ability to repeatedly and consistently translate science into medicine has led to numerous FDA-approved treatments, almost all of which were homegrown in our laboratories.

Sanofi is dedicated to supporting people through their health challenges. We are a global biopharmaceutical company focused on human health. We stand by the few who suffer from rare diseases and the millions with long-term chronic conditions. With more than 100,000 people in 100 countries, Sanofi is transforming scientific innovation around the globe.

SunPharma

Sun Pharma is a wholly owned subsidiary of Sun Pharmaceutical Industries Limited (SPIL). SPIL is the world's fourth largest specialty generic pharmaceutical company and India's top pharmaceutical company. A vertically integrated business and a skilled team enables it to deliver high-quality products, trusted by customers and patients in over 100 countries across the world, at affordable prices. Its global presence is supported by manufacturing facilities spread across 6 continents and approved by multiple regulatory agencies, coupled with a multi-cultural workforce comprising over 50 nationalities. SPIL fosters excellence through innovation supported by strong R&D capabilities across multiple R&D centers, with investments of approximately 6% of annual revenues in R&D. For further information, please visit www.sunpharma.com & follow us on Twitter @SunPharma_Live.

WDS Forum Speakers (in alphabetical order)

Lindsay S. Ackerman, MD, FAAD

Founder, Medical Dermatology Specialists
Chief of Dermatology, Banner University Medical Center Phoenix
Associate Professor, Dermatology, Banner University of AZ College of Medicine
Phoenix, Arizona

Lindsay S. Ackerman, MD, was the founding physician of Medical Dermatology Specialists, and the Medical Dermatology Specialists' Clinical Research Unit, in Phoenix, Arizona, where she actively practices clinical dermatology and serves as both a Principle Investigator and Director of Research. Dr. Ackerman is also an Associate Professor of Dermatology at the University of Arizona College of Medicine, Lead faculty attending for resident education in Dermatology, and the Chief of Inpatient Dermatology at Banner University Medical Center.

Dr. Ackerman earned her medical degree at the University of Arizona College of Medicine in Tucson, Arizona, completed an internship in Combined Medicine/Pediatrics at Banner Good Samaritan Medical Center, and she completed a residency in Dermatology at Tulane University in New Orleans, Louisiana, followed by a fellowship in Complex Medical Dermatology. Dr. Ackerman remains board certified in Dermatology.

Dr. Ackerman has served in many roles in both leadership and advocacy. She was elected to serve as the member representative to the American Academy of Dermatology's (AAD) Nominating Committee in 2024 and has served as a Delegate for the AAD to the American Medical Association (AMA) since 2005. She has been active in local dermatology societies, as a founding and former board member of the Arizona Dermatology and Dermatologic Surgery Society, and as a member of the Phoenix Dermatologic Society. Dr. Ackerman has served on several task forces for the AAD, Women's Dermatologic Society, and remains an active member of the Dermatology Foundation Advisory Council.

Dr. Ackerman has been published in several peer-reviewed publications, including JAMA Dermatology and JAAD, and has been invited to share her independent research at international meetings such as the World Congress on Gender Medicine, European Academy of Dermatology and Venereology, and the World Congress of Dermatology. Lecturing locally, nationally, and internationally, she finds joy in the engagement of both teaching and learning.

Lindsay prides herself on being a dedicated wife, mother, and daughter. She describes herself as someone that loves life itself, and genuinely engages in celebrating the gifts provided by all her relationships ... with family, friends, colleagues, and patients.

Jennifer Adams MD, FAAD, DTM&H

Associate Professor
Interim Chair
Residency Program Director
Department of Dermatology
University of Nebraska Medical Center/
Nebraska Medicine

Dr. Jennifer Adams is an associate professor in the Department of Dermatology at the University of Nebraska Medical Center in Omaha, Nebraska where she serves as both Interim Chair and Residency Program Director. She practices medical dermatology with a special interest in infectious disease dermatology and directs the UNMC HIV Dermatology clinic. Dr. Adams is a longtime WDS member and currently serves as Chair of the WDS Community Service and Public Education Committee.

Alyx Rosen Aigen, MD

Alyx Rosen Aigen, MD, is an Assistant Professor of Dermatology at the Dr. Phillip Frost Department of Dermatology and Cutaneous Surgery. She received a bachelor's of engineering from Duke University where she was inducted into the Tau Beta Pi engineering

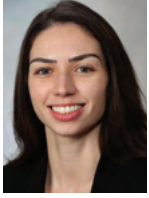

honor society. She received her medical degree from Albert Einstein College of Medicine in New York. Following medical school, Dr. Rosen Aigen completed both a dermatology research fellowship and internship at Memorial Sloan Kettering Cancer Center. She relocated to Miami for dermatology residency at the University of Miami.

Dr. Rosen Aigen completed a Mohs Micrographic Surgery and Dermatologic Oncology fellowship at The Skin Institute of South Florida under the instruction of Dr. Eli Saleeby, a student of Dr. Frederick Mohs. She also simultaneously completed an American Society of Dermatologic Surgery accredited cosmetic surgery fellowship with Dr. Eduardo Weiss, a pioneer in the field.

Dr. Aigen's clinical and research interests focus on skin cancer treatment, dermatologic oncologic surgery, and achieving aesthetic outcomes following oncologic surgery. She also has a robust aesthetic practice that focuses on prejuvenation and rejuvenation with injectable therapies as well as laser, light, and energy-based devices. She has published over 40 peer-reviewed articles and book chapters.

Alyx Rosen Aigen, MD, is an Assistant Professor of Dermatology at the Dr. Phillip Frost Department of Dermatology and Cutaneous Surgery. She received a bachelor's of engineering from Duke University where she was inducted into the Tau Beta Pi engineering honor society. She received her medical degree from Albert Einstein College of Medicine in New York. Following medical school, Dr. Rosen Aigen completed both a dermatology research fellowship and internship at Memorial Sloan Kettering Cancer Center. She relocated to Miami for dermatology residency at the University of Miami.

Naiara Barbosa, MD

Dr. Naiara S. Barbosa is board-certified in Dermatology and Mohs surgery by the American Board of Dermatology. After completing her Dermatology residency and Mohs Surgery fellowship at the Mayo Clinic in Rochester, Minnesota, she served as the Director of

Mohs Surgery and Cutaneous Oncology, and Director of Diversity, Equity, and Inclusion at the University of New Mexico, Department of Dermatology.

Subsequently, Dr. Barbosa joined the Department of Dermatology at Mayo Clinic in Jacksonville, Florida where she currently serves as the Department Diversity and Quality Leader, and Medical School Resident Advisor.

Her clinical areas of expertise include diagnosis and treatment of skin cancers, procedural dermatology, and skin surveillance in immunosuppressed patients. Dr. Barbosa's academic interests include non-melanoma skin cancer research, skin cancer care and access for underserved populations, and diversity and inclusion advocacy. Dr. Barbosa is an active member of multiple dermatology societies and volunteers as a mentor for underrepresented minority students nationwide.

Latanya Benjamin, MD FAAD FAAP

Latanya T. Benjamin, MD is the Immediate Past President of the Women's Dermatologic Society. She is a renowned double board-certified and fellowship trained Pediatric Dermatologist and former faculty professor at Stanford University.

Dr. Benjamin is the Founder of Young Skin®, a private medical practice dedicated to specialized care and healing for all children with rare and common skin concerns, inclusive of all skin types and colors.

Dr. Benjamin is co-editor of four (4) major medical textbooks. Nationally recognized as an expert in photoprotection, atopic dermatitis, acne, and all things baby, her medical expertise has been featured in The NY Times, the Wall Street Journal, Huffington Post, USA Today, FoxNews, the Bump, Parents, Elle and People magazine.

Dr. Benjamin is named among the Top 52 Best Black Dermatologists across the United States, by Allure magazine.

As President of WDS, Dr. Benjamin continued her work as a trailblazer and a leading female dermatologist by making a difference in today's world of medicine and serving as a mentor to many young physicians. Latanya is a passionate advocate for women and children and is dedicated to the fight against childhood bullying and human trafficking. She is a woman of positive influence who enjoys mentoring, lecturing, traveling and being a mother to a young daughter.

Wilma Bergfeld, MD, FACP, FAAD, FASDP

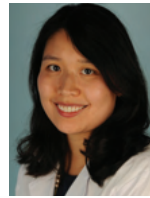

Wilma Fowler Bergfeld MD, is Emeritus Director, and past Director and Co-Director of Dermatopathology, Departments of Dermatology and Pathology and Senior Staff Dermatologist and Senior investigator of Dermatological Research in the Department of Dermatology,

Cleveland Clinic. She also is the Director of the Cleveland Clinic's Dermatopathology Fellowship and Professor of Dermatology and Pathology, Cleveland Clinic Educational Foundation and Associate Clinical Professor, Department of Dermatology, Case Western Reserve University.

Her specialty interests include clinical dermatology (hair disorders, androgen excess, photo aging, and cosmetic dermatology) and dermatopathology.

Dr Bergfeld is the author of over 818 publications, 4 books and 86 book chapters. She has served on many editorial journal boards and has been a reviewer in the both her professional fields of clinical dermatology and dermatopathology. Her awards include AAD Master Clinician 2014, and Cleveland Clinic's Master Clinician's Award 2022.

Her successful career has been recognized through several awards, including Top 2023 Doctors, 1996-current as well as Past President, American Academy of Dermatology, American Society of Dermatopathology, American Hair Research Society, Past President and Founder, Women's Dermatologic Society and Chair, International Federation of Hair Research.

Emily Chu, MD PhD

Dr. Emily Chu is an Associate Professor of Dermatology and Pathology and Laboratory Medicine at the Perelman School of Medicine of the University of Pennsylvania, and Director of the Dermatopathology Fellowship Program at the University of Pennsylvania. Her clinical

and research interests focus on melanoma diagnosis and management, cancer-related genodermatoses, and oncodermatopathology; she has published extensively on these topics in prominent peer-reviewed journals and major medical textbooks. Dr. Chu holds leadership roles in several professional organizations, and currently serves on the Board of Directors for the Women's Dermatologic Society, Advisory Council for the Dermatology Foundation, the editorial boards of the Journal of Cutaneous Pathology and JID Innovations, and numerous committees within the American Society for Dermatopathology and the American Academy of Dermatology.

WDS Forum Speakers (in alphabetical order)

Jennifer Fernandez, MD, RD

Dermatology Resident PGY-4
University of Nebraska Medical Center, Omaha, NE
Fellowship: Clinical Informatics, University of
Arizona College of Medicine Phoenix (2025-2027)

Dr. Jennifer Fernandez is a third-year dermatology resident at the University of Nebraska Medical Center where she started the program's research track. Her research track has focused on global teledermatology and cutaneous oncology in racial and ethnic minorities, and she received grants from both the American Academy of Dermatology and the Skin of Color Society as a first-year resident to support her research. After residency graduation, she will be doing a 2-year clinical informatics fellowship at the University of Arizona College of Medicine Phoenix, and she will be one of the first dermatologists in the world to be fellowship-trained in bioinformatics.

She completed her undergraduate studies at New York University where she played both collegiate volleyball and water polo, followed by a dietetic internship at Harvard's Brigham and Women's Hospital. She then worked as a hospital dietitian for seven years before she transitioned to medical school at the University of Arizona College of Medicine – Tucson and completed an internal medicine internship at the University of Arizona – Phoenix.

Her clinical interests include mentorship, international dermatology, teledermatology, big data, cutaneous oncology, workflow efficiency, imaging informatics, and artificial intelligence. Outside of medicine, she enjoys biking, flying trapeze, archery, and spending time with her husband and son.

Mona A. Gohara, MD

Associate Clinical Professor
Associate Director of DEI and Community
Engagement
Advisory Faculty, Community Engagement and
Diversity Distinction Residency Track
Department of Dermatology, Yale School of

Medicine

Associate Clinical Professor, Yale School of Medicine,
Department of Dermatology

Dr. Mona Gohara did her dermatology training at Yale, where she served as Chief Resident. She continues to hold a faculty appointment in Yale's Department of Dermatology, where she is also the Associate Director of DEI and Community Engagement. Mona sees patients in a private practice located near New Haven, CT.

Mona and her husband Kiran, have two teenage sons, Kiran, and Jai. Besides mothering and doctoring, Mona spends time educating the public on skin health, skin cancer, skin of color, and sun protection. She has done this through writing, lecturing on the local, national, and international level, and by engaging popular media.

Mona has a particular passion around advancing diversity, equity, and inclusion in Dermatology. One of the least diverse specialties. She has been involved in the creation of many initiatives working with both professional societies and industry partners towards this end.

Mona is an active member of The American Academy of Dermatology, where she has Chaired the Social Media Task Force, and Member Communications Committee, The Women's Dermatologic Society where she has served as President, and The American Society for Dermatologic Surgery, where she Chairs the DEI Work Group. She has been published in The Journal of the American Academy of Dermatology, The Journal of Drugs in Dermatology, The British Journal of Dermatology, and The Journal of Pediatric Dermatology. Mona serves/has served on the advisory board of ELLE, Women's Health, Shape, Fitness, Prevention and Good Housekeeping magazines. She has been a contributing writer for Goodhousekeeping.com, ELLE.com, Essence.com, Shape.com, and People.com and a medical expert for many other mainstream media outlets.

Molly Hinshaw, MD

Molly Hinshaw is Professor of Dermatology, Vice Chair of the Department of Dermatology, Section Chief of Dermatopathology, and Director of the Nail Clinic at the University of Wisconsin School of Medicine and Public Health in Madison, WI. She is honored to have served as a past

president of the Women's Dermatologic Society. Through her work with professional organizations, she lives her belief that mentorship and sponsorship are critical drivers of advancement & professional success. In addition to her clinical work and teaching, Dr. Hinshaw is current Board member of the American Society of Dermatopathology, Board member of the Council for Nail Disorders, Chair of the AAD Mohs Surgery Committee, Chair of the University of Wisconsin Medical Foundation Finance Committee, & has held numerous appointments within the WDS, AAD, ASDP, and Wisconsin Dermatological Society including serving as President of the latter. She is married to her wonderful and supportive husband Louis and is the proud mom to Audrey and Louis. When she is not working she enjoys working out, adventuring, having fun and making memories with family & friends.

Sarah C. Jackson, MD

Dr. Sarah Jackson is a board-certified dermatologist specializing in medical, cosmetic, and laser dermatology.

Dr. Jackson has a private practice in New Orleans, Louisiana, and spends time teaching, lecturing, and participating in clinical trials in

dermatology.

She is the current President of the Women's Dermatologic Society, and active in the AAD, ASDS, and her local Louisiana Dermatological Society.

Kachiu Lee, MD MPH

Dr. Kachiu Cecilia Lee, MD MPH is a board-certified dermatologist in private practice in the Philadelphia area, where she also serves as an Assistant (Adjunct) Professor in the Department of Dermatology, Temple University. Dr. Lee received her B.A summa cum laude and MD

from Northwestern University. She completed her dermatology residency at Brown University, where she served as Chief Resident and was awarded the Haffenraffer Housestaff Award in recognition of her efforts above and beyond for providing excellent patient care. After residency, she joined the Wellman Center for Photomedicine at Massachusetts General Hospital / Harvard Medical School, where she completed a photomedicine fellowship in lasers and light-based energy devices. In her free time, Dr. Lee enjoys hiking and spending time with her 3 young children.

Jennifer Lucas, MD, MHCM, FAAD, FACMS

Vice Chair, Medical Subspecialty Institute
Section Head, Dermatologic Surgery
Director, Mohs Micrographic Surgery
Vice Chair, Quality and Patient Safety, Dermatology
Immediate Past President, Women's Dermatologic Society

Dermatologic Society

Jennifer Lucas, MD is a Dermatologic and Mohs surgeon at the Cleveland Clinic, where I serve as Vice Chair of the Medical Subspecialty Institute, Director of Mohs Surgery, Section Head for Dermatologic Surgery, and Vice Chair of Quality, Safety, and Patient Experience for Dermatology.

My journey with the Women's Dermatologic Society (WDS) has been deeply rewarding, spanning various leadership roles, including committee service, Board of Directors, Vice President, and President. In addition to my work with WDS, I am actively involved in other dermatologic organizations, including the American Academy of Dermatology (AAD), where I currently serve on the Board of Directors and Executive Committee.

Beyond my professional commitments, I am dedicated to community service, serving as a Board Member and Secretary for Fostering Hope, a nonprofit supporting foster children in the Cleveland area.

Above all, I am the proud mother of my beautiful daughter, Olivia Sophia, who made her debut during my WDS presidency and may just be a future WDS president in the making.

Board of Directors, American Academy of Dermatology
Associate Professor, Cleveland Clinic Lerner College of Medicine of CWR

Mary Maloney, MD

Dr. Maloney is a Mohs surgeon who trained at UCSF a long time ago. She stepped down as Chair at U Mass in 2023, and now is practicing at the U of VT part time as her retirement gig. She has been involved with the WDS in many roles including Treasurer and President, enjoying every minute of her association with women in dermatology.

WDS Forum Speakers (in alphabetical order)

Melissa Mauskar, MD FAAD

Melissa Mauskar, MD, is an Associate Professor in the Department of Dermatology and the Department of Obstetrics and Gynecology at UT Southwestern Medical Center. Her clinical practice is focused on women's health dermatology: addressing changes in skin and vulvar health that occur throughout different life stages, such as puberty, pregnancy, perimenopause, and post menopause. She cares for patients with everything from acute rashes to acne, however she is an expert in treating patients with vulvar dermatoses.

She is the Founder and Director of the Vulvar Health Program at UT Southwestern, a tertiary referral center for gynecologists, dermatologists, and primary care physicians serving Texas and the nation.

She is a past president of the Dallas Dermatological Society, serves on the board of directors of the Women's Dermatologic Society, and is secretary general of the North American ISSVD. She is the founding president of the Vulvar Dermatoses Research Consortium, and expansive group of healthcare practitioners and trainees in North America dedicated to advancing the field of vulvar dermatology.

As an advocate for women's health and educational initiatives, Dr Mauskar aims to improve the quality of life for women and their interpersonal relationships to empower patients to speak more freely about their conditions.

Michael Ming, MD MSCE

Michael E. Ming, MD, MSCE, is an Associate Professor of Dermatology at the Hospital of the University of Pennsylvania. Dr Ming attended graduate school in linguistics at the University of Paris III (Sorbonne Nouvelle) before earning his medical degree at Harvard Medical School,

followed by a dermatology residency in the Harvard Combined Dermatology Training Program. Dr Ming then completed a fellowship in dermatopathology at the University of California, San Francisco, where he was also a National Veterans Affairs Quality Scholars Fellow. Dr. Ming has a Master of Science in Clinical Epidemiology from the University of Pennsylvania. He has been working in the Pigmented Lesion Clinic at the University of Pennsylvania for almost 25 years. His clinical and research interests revolve around melanoma and pigmented lesions

Brianna Olamiju, MD

Dr. Brianna Olamiju, MD is a 3rd year dermatology resident physician at Weill Cornell Dermatology in New York City. She is very passionate about mentorship, medical journalism, and patient education. Dr. Olamiju received her medical degree from Yale

University and her undergraduate degree from Columbia University. Within WDS, she serves on the Residents, Fellows, & Young Physicians Committee and she was recently appointed as the Resident Representative to the WDS Board.

Heidi B. Prather, MD, FAAD

WESTLAKE DERMATOLOGY

Board Certified Dermatologist

ASDS Cosmetic Dermatologic Surgeon

Heidi B. Prather, MD, FAAD is a board-certified dermatologist and fellowship-trained cosmetic and procedural dermatologist at Westlake

Dermatology. Dr. Prather is active in clinical research and served as a Principal Investigator for Sculptra's recent FDA labeling and other new injectable products coming to market. She is an active member of the Women's Dermatology Society and American Society of Dermatologic Surgery (ASDS). She currently serves as Board Member of WDS was selected as a member of the Future Leaders Network with ASDS. In this mentorship, she worked with a team to evaluate quality of life outcomes in cosmetic dermatology patients using a prospective national survey titled "IMPACT: Impact Measurement After Cosmetic Treatments."

Dr. Prather's diverse work experience began in biomedical engineering at Southern Methodist University in Dallas, Texas and has evolved to include specialization in laser technology and surgery. She has been involved in cutting-edge clinical research to bring new treatments to market, such as the latest neuromodulators, mesotherapy (fat reduction injectables), and novel lasers for tattoo removal, photo rejuvenation and acne treatment. During her fellowship, she participated in the first commercially available treatments with Cellfina, a standardized device for cellulite release, and Kybella, an injectable for submental fat reduction. She has been published in peer-reviewed journals on non-ablative skin tightening, vascular malformations, tattoo removal and laser safety and continues to contribute to the literature through publication and peer-review. She has presented nationally on these topics with the American Society of Lasers in Medicine (ASLMS), American Academy of Dermatology (AAD), ASDS and has participated as Faculty at Controversies and Conversations in Laser and Cosmetic Surgery, an Advanced Symposium and at ASLMS.

Dr. Prather completed her doctorate of medicine at UT Southwestern Medical Center in Dallas, Texas, where she received a competitive Doris Duke research grant studying the clinical and genetic spectrum of Scleroderma, a devastating autoimmune condition that affects the skin. Dr. Prather subsequently completed both her Internship in Internal Medicine and her Dermatology Residency at the University of Pittsburgh Medical Center. Afterwards, she was selected to join SkinCare Physicians' American Society of Dermatologic Surgeons accredited fellowship in Boston, MA. As a Cosmetic and Laser Surgery Fellow, she trained with pioneers in the field of aesthetic dermatology, cosmetic surgery, hair transplantation and liposuction. Dr. Prather brings these unique skills to Westlake Dermatology, along with her passion for using technology to enhance medical care. She currently also volunteers as faculty at UT Austin Dell Medical School Dermatology Residency Program.

WDS Forum Speakers (in alphabetical order)

Frankie Rholdon, MD

Dr. Frankie Rholdon is a private practice general dermatologist in Lafayette, Louisiana. She attended medical school in Dallas, TX at the University of Texas Southwestern Medical Center. She then completed a residency in Dermatology at Louisiana State University in New Orleans. Dr. Rholdon also serves as assistant clinical professor in the Department of Dermatology at LSU.

Katie Shahwan, MD, FAAD

Associate Professor
Division of Dermatologic Surgery
Department of Dermatology
The Ohio State University Medical Center

Katie Shahwan is an Associate Professor in the Division of Dermatologic Surgery, Department of Dermatology at The Ohio State University Medical Center in Columbus, Ohio. She is a fellowship-trained Mohs micrographic surgeon, and has a special interest in high risk cutaneous squamous cell carcinoma, rare skin tumors, facial reconstruction, transplant dermatology, and medical education.

Mary L. Stevenson, MD

I am a Mohs micrographic surgeon at NYU Langone Health as well as Associate Director for the Micrographic Surgery and Dermatologic Oncology Fellowship. My research focuses on high risk squamous cell carcinoma and patients at risk of poor outcomes. I am interested in what populations may be at higher risk of morbidity and mortality from their skin cancers. I am also interested in less common skin tumors and biomarkers as predictive of outcomes and behavior of skin cancers.

Rebecca Vasquez, MD

Rebecca Vasquez, MD, is an Associate Professor in the Department of Dermatology at UT Southwestern Medical Center, where she serves as the Director of the Vitiligo and Pigmentation Clinic.

She joined the UT Southwestern faculty in 2015 and has since served as the Assistant Chief of Service of Dermatology at Parkland Health and Hospital System. Additionally, Dr. Vasquez is the Faculty Sponsor for the Agape Clinic, a student-run free clinic in Dallas, and the Future Doctor Pathway Program, a mentorship initiative for high school students.

Her clinical and research interests focus on medical education, populations underserved, health disparities, and pigmentary conditions.

Dr. Vasquez's professional honors include the Department of Dermatology's Outstanding Teacher Award (2016, 2017, and 2020) and Parkland's Physician of the Year (2024). She is also an active member and holds various leadership roles in the American Academy of Dermatology, Skin of Color Society, and Women's Dermatologic Society.

Melodi Whitley, MD PhD

Dr. Melodi Javid Whitley is an Assistant Professor of Dermatology at Duke University School of Medicine. She serves as the Director of Transplant Dermatology, Director of Dermatology Biobanking, and Assistant Program Director for Trainee Research. She specializes in cutaneous oncology, transplant dermatology, and inpatient dermatology. Dr. Whitley earned her MD and PhD in Molecular Cancer Biology from Duke University, where she also completed her dermatology residency. Her research focuses on understanding mechanisms of skin cancer development, particularly in high-risk populations such as solid organ transplant recipients. An active contributor to dermatologic research, she has authored numerous publications and frequently presents at national and international conferences. She also sits on the Board of Directors for the International Transplant Skin Cancer Collaborative, is the current Secretary-Treasurer of the North Carolina Dermatologic Association and serves on the WDS Academic Dermatology Committee.

Wendi Wohltmann, MD

Wendi Wohltmann, MD, FAAD, is board-certified in Dermatology, Dermatopathology, and Lifestyle Medicine. She is an Associate Professor of Dermatology at the Uniformed Services University of the Health Sciences and an Adjunct Assistant Professor of Dermatology at University of Texas Health, San Antonio. Dr. Wohltmann is currently a Special Editor for the Journal of the American Academy of Dermatology and Secretary of the Women's Dermatologic Society (WDS). She has served as Vice President of the WDS, President of the Association of Military Dermatologists, and Program Director of the SAUSHEC Military Dermatology Residency Program. Dr. Wohltmann recently retired from the United States Air Force after 20 years on active duty.

Ashley Wysong, MD MS

Dr. Ashley Wysong recently joined Mayo Clinic as a Senior Associate Consultant and Director of Mohs and Dermatologic Surgery in Jacksonville, Florida. From 2018 to 2024, Dr. Wysong served as the Founding Chair, Tenured Professor, and William W. Bruce, MD, Distinguished Chair of the Department of Dermatology at the University of Nebraska Medical Center (UNMC), where she remains on faculty as Emeritus Professor. Under her leadership, she spearheaded the development of the department's clinical, educational, research, and service/outreach programs. Prior to her tenure at UNMC, Dr. Wysong served as Director of Mohs Micrographic Surgery and Procedural Dermatology at the University of Southern California's Department of Dermatology. Dr. Wysong earned a master's degree in epidemiology from Stanford University and graduated as valedictorian from Duke University School of Medicine. She completed her dermatology residency at Stanford University, where she served as chief resident, followed by a fellowship in Mohs micrographic surgery and Cutaneous Oncology at Scripps Clinic. With expertise in clinical, translational, and outcomes-based research, Dr. Wysong specializes in squamous cell carcinoma and other high-risk skin cancers. Her leadership and innovations continue to advance the field of dermatologic surgery and oncology.
