

WDS PLAY SAFE IN THE SUN

Winnebago Powwow – July 25, 2024
Winnebago, Nebraska

The award winning WDS Play Safe in the Sun program works at curbing the incidence of skin cancer by providing sun safety education & materials, spot skin checks, and complimentary sunscreen samples to the public!

ABOUT THE EVENT

UNMC Dermatology partnered with Nebraska Healing to have a booth at the Winnebago Powwow on July 25, 2024. It was the first day so there wasn't a huge turnout yet, but we were able to connect with a lot of the locals who were in attendance and still passed out sunscreen, bracelets, and sun safety information provided by WDS to a few dozen people.

It meant a lot to the community to have people drive an hour and half from Omaha to be there with them and to learn about their culture while also serving people by educating them on sun safety.
